Subject: RRCC ops schedule & a staff changes
Date: Sunday, September 03, 2017 10:50:13 AM

All,

Kent Weathers just advised that we are changing the operations schedule and staffing requirements in the RRCC. Effective tomorrow at 0700, we will run the following shifts:

--day shift 0700-1600

--night shift 1600-0100

--Denton MOC covers 0100-0700

Additionally, the only night shift ESF requirement is for one (1) ESF 8 rep. Other ESFs are not required to staff the night shift.

If you have any questions or want to discuss, let me know. If you feel there are operational requirements that are in conflict with these changes, we can get with Bullett and talk about it.

Thanks for your continued support.

Chris
